

C G Arrow Office Hypars

Client: C G Arrow Year of Completion: 2005
Main Contractor/Customer: Orien Contracts Limited

When C G Arrow had problems with glare within their office they needed an option which would reduce the brightness but still retain light within the space.

After being approached by the building contractors, Architen Landrell proposed the installation of two standard hypars which, created from a PVC glass mesh, would allow light into the area without the glare.

The hypars were fabricated in Chepstow and transported to Guernsey where they were installed above the reception desk of the refurbished office. They provide thoroughly effective solar shading and a bit of architectural finish to the design!

Location:
Guernsey

Category:
Interior

Market Sector:
Offices

Scope Of Works:
Design
Manufacture
Project Management
Install
Steelwork

Fabric Type:
PVC Glass Mesh - Natte

Design Style:
Hypar

Function:
Solar shading
